A little daughter of Mr. Koepke, aged three years, was run over by a horse on Washington street, to take the place of the old wire bridge. The kind of bridge is not yet decided on, but proposals will be advertised for two or three kinds of bridges. There seems to be a difference of opinion between the Commissioners and the city as to how much the city shall give towards the bridge. The offer is \$1,000, while the Commissioners want \$3,000 or \$4,000. It is claimed on the part of the city that it has paid a much larger amount towards the bridge in the past than it has ever received in bridge, and that it is entitled to this bridge from the county fund. The Commissioners claim that they have \$1,000 to expend on the bridge, and that the law will not allow them to go beyond that. The bridge is a county necessity, and the Commissioners might claim a part without material injury to the county, and much to the benefit of the people.

The Cincinnati, Sandusky & Cleveland Railroad has offered to pay \$1,000 towards the widening of Water street under its track, which sum the Council has decided to accept. The balance of the improvement will be assessed on the property benefited thereby. The street should be widened at once, as it is almost impassable and is dangerous.

An addition.—In order to accommodate a large class of dealers, the Ohio Shoe Co. recently commenced the manufacture of hand-made sewed shoes. We were shown a sample of the goods and can commend them to dealers who like to sell goods which are just as recommended in style, material and manufacture.

M. Shanks returned a short time ago from Kansas, where they went in the latter part of the month. They do not report very favorably of that much-lauded country. They have come to the conclusion that "It's not all gold that glitters."

We are informed that a riot took place in Findlay yesterday. A woman keeper of a saloon in Findlay, who was in jail for some misdemeanor and the other saloon keepers and friends attacked the jail, forced an entrance and took the man out. The sheriff attempted to keep the peace, but he was badly injured. Several others were badly hurt in the riot. We have no general particulars.

Since the above was in type, we learn that the man confined in 150 persons. They went to the jail and demanded the prisoner, "Daddy" Dietrich. The sheriff refused to give him up. The Attorney for Dietrich went on just the same. They did not get out of the jail until they had paid a fine of \$1,000. He was allowed to go in, and several of the rioters. The sheriff went to the prisoner's room with them and then left them for a moment. The rioters then broke in and mob-departing with Dietrich, and upon trying to stop them he was struck and rendered insensible. The mob then took Dietrich and went to his home. At the door of the house they met with an obstacle, Capt. Crawford standing there with a revolver to prevent their going in and to have the prisoner taken. A woman came to the door of the house and offered \$1,000, the shoulder with the back of a hatchet. This ended the matter, although several others were hurt.

Dietrich afterwards gave himself up. A. D. Scott's horse, like any sensible horse, was very much alarmed at the riot and started for the barn with a wagon attached to him, Monday morning, at a rate not to exceed forty miles an hour. The wagon was pulled under the care of a wagon driver. It was one of these frisky, blue-tailed dyes that caused the animal to be so much alarmed.

The most important reason we know of are those abominable vagabonds, commonly known as the old-fashioned potato bugs. They are here in great numbers, and are doing much damage to the crops. They are everywhere, and are very difficult to get rid of. They are very much to be feared, and are very much to be feared.

A fire got in some of the meadow land lying west of town Tuesday, and completely carried away what would have been a very fine crop of hay. The fire was caused by a spark from a train, and it was very much to be feared. It was very much to be feared, and it was very much to be feared.
